Introduction

# About Us

## Providing World Class Learning Technology Solutions.

### Our Mission

LearnTech is a learning technology company with an unrelenting drive to deliver impactful digital solutions. We understand that your success is our success.

### Our Vision

To be one of the worlds leading Learning Technology and E-Learning providers.

LearnTech has been delivering world class digital learning solutions throughout Southern Africa and Mauritius for over 20 years.

Our solutions are designed and developed right here in South Africa; this gives us the freedom to be flexible with our offerings, packages and of course, pricing models. We have saved large corporate businesses millions of Rand's due to our ability to offer international quality systems without the international price tag.

We have experience in the following industries, including Government, Automotive, Mining, Phamaceutical, Information Technology, Baning, FMCG, Education & Retail.

What We Do

# Our Products

## PHOENIX LMS

Phoenix is a powerful LMS system, designed specifically for South African corporates.

## PROCTOR EDU

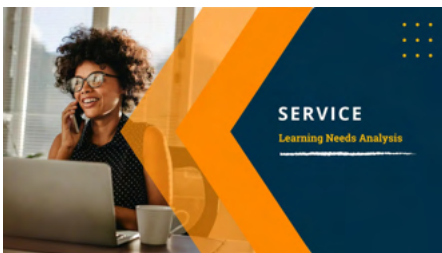

ProctorEdu allows you to conduct credible Online Examinations anywhere, anytime.

## MY LEARNING

My Learning is an extensive library of ready made SCORM compliant E-Learning courses.

# Our Services

## NEEDS ANALYSIS

We will help you to determine the gap between your existing skills, knowledge and abilities vs your Business Needs.

## CURRICULUM DESIGN

We will help you to consolidate your learning content, rewrite it for your target audience, and map content to objectives.

## E-LEARNING CONVERSION

We will help you to convert your existing learning material into a beautiful, effective E-Learning experience.

Professional Team

# OUR CLIENTS

Established in 1999, LearnTech has become South Africa's E-Learning Solutions provider of choice. Our Success can be attributed to our unrivaled ability to design unique solutions within budget as well as our commitment to providing superior services.
